100 schede operative su ...

# I NUMERI ENTRO 100

Schedario in formato PDF interattivo

## Organizzazione delle schede

Questo testo contiene schede operative interattive relative ai numeri entro 100. È il primo testo della raccolta "100 schede operative su..." . A questo ne faranno seguito altri. Tutti i testi conterranno almeno 100 schede interattive relative ad un determinato argomento.

Nel testo le schede non sono interattive; queste, numerate da 1 a 132, servono ad una rapida consultazione del materiale e per il reperimento di ciò che si ritiene funzionale. Effettuare, seguendo le indicazioni, il download delle schede interattive.

## Download delle schede

Accedere al sito [www.ivana.it](http://www.ivana.it).

Inserire i dati di accesso nel *blocco a sinistra* e premere il pulsante *Login*.

Le credenziali sono riportate nell'ultimo capitolo ("*Dati di accesso per il download del software*").

### Login

Accesso per il download del materiale. I dati di accesso sono nell'ultima pagina del testo acquistato.

Verrà visualizzata la pagina *Libri*; qualora non venisse visualizzata automaticamente, richiamarla dal menù orizzontale della pagina del sito.

Cliccare su *100 schede operative su ... I numeri entro 100* per accedere alla pagina del download.

**100 schede operative su... I numeri entro 100**

In questa pagina sono disponibili per il download

- *schede interattive in formato PDF;*
- *schede in formato PDF, adatte alla stampa.*

**Il download è riservato a chi ha acquistato il testo. I dati di accesso sono personali e non sono distribuibili.**

## Schede interattive

Scaricare, seguendo le indicazioni, il file *SchedeInterattive.zip* (l'estensione *.zip* potrebbe essere nascosta e l'icona potrebbe essere diversa).

SchedeInterattive.zip

Decomprime il file. Si otterrà una cartella di nome *SchedeInterattive*. All'interno di questa cartella sono presenti tutte le schede interattive.

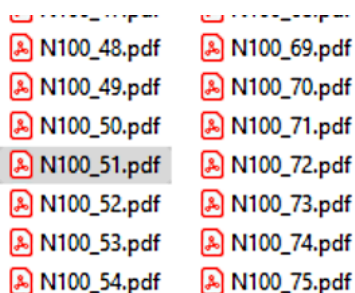

Queste sono fornite in pagina singola, in file numerati da 1 a 132, per facilitarne la distribuzione via rete.

Per individuare la scheda ricercata, controllare nel testo il codice della scheda stessa, in alto a sinistra.

Nell'immagine di esempio, la scheda è la n. 51. La sigla *N100* indica il testo (*Numeri entro 100*), ed è uguale per tutte le schede. Il numero successivo è il numero progressivo delle schede.

Ricerca nella cartella il file con lo stesso numero progressivo.

Le schede sono state testate con il lettore *Adobe Acrobat Reader*, disponibile per *Windows, MacOS, Android e iOS*: si consiglia l'installazione di questo lettore. Risultano però funzionanti anche con molti altri lettori.

Le schede possono essere compilate utilizzando il mouse, oppure solo la tastiera. Per utilizzarle con la sola tastiera:

- tasto di tabulazione per passare da una casella all'altra;
- caselle di opzione: frecce destra e sinistra tra un'opzione e l'altra, tasto di tabulazione per cambiare gruppo di caselle;
- tasto spazio per selezionare / de-selezionare le caselle di selezione;
- frecce su e giù nelle tendine con elenchi;

- scrivere normalmente nelle caselle di testo (alcune caselle accettano solo numeri).

Dopo aver compilato la scheda, salvare il file: la scheda verrà salvata con le modifiche effettuate. Consiglio quindi di lavorare su una copia delle schede, mantenendo la cartella originale "pulita" (anche se sarà comunque possibile scaricarla anche in seguito).

## **Schede per la Stampa**

È disponibile in download anche il pacchetto delle stesse schede in formato adatto alla stampa. Effettuare il download del file *SchedeStampa.zip* seguendo le indicazioni fornite per le schede interattive.

Si otterrà una cartella *SchedeStampa*, organizzata come la precedente. Queste schede sono identiche alle precedenti, ad esclusione della parte interattiva. Mantengono quindi gli stessi colori, per cui alcune potrebbero non essere adatte alla stampa in serie.

Per distinguere i file da quelli delle schede interattive, nel nome è stato inserito anche il carattere s: ad esempio la scheda interattiva *N100-51* corrisponde alla scheda per la stampa *N100s-51*.
